Narrow Keyboards for Sale!

Thank you for requesting information on Narrow Keys digital keyboards with 5.5 inch octave widths.

We began accepting orders for NK5.5-C keyboards in November of 2022. A total of 20 keyboards have been produced and shipped since then. The second batch of keyboards (11 to 20) were made much more quickly than the first ten. We hope to keep ramping up our production and shortening your wait time. Currently we are working on a third batch of 10 instruments.

We have a substantial waitlist for subsequent production. All of our waitlist customers are kept informed of progress as we fulfill orders and shorten that list. New orders may ship in the latter half of 2024.

Watch a review of the NK5.5 by one of our first customers at [this link](#). (She talks about her NK5.5 at 1:10:00).

We are happy to accept your order to be added to the waitlist. Just follow the instructions below. You will not be asked to pay the 50% deposit until your keyboard is near production.

Now Accepting Pre-Orders

We are currently building and shipping keyboards in limited quantities. If you intend to purchase an NK5.5 digital keyboard, please fill out an order form by clicking on the link below.

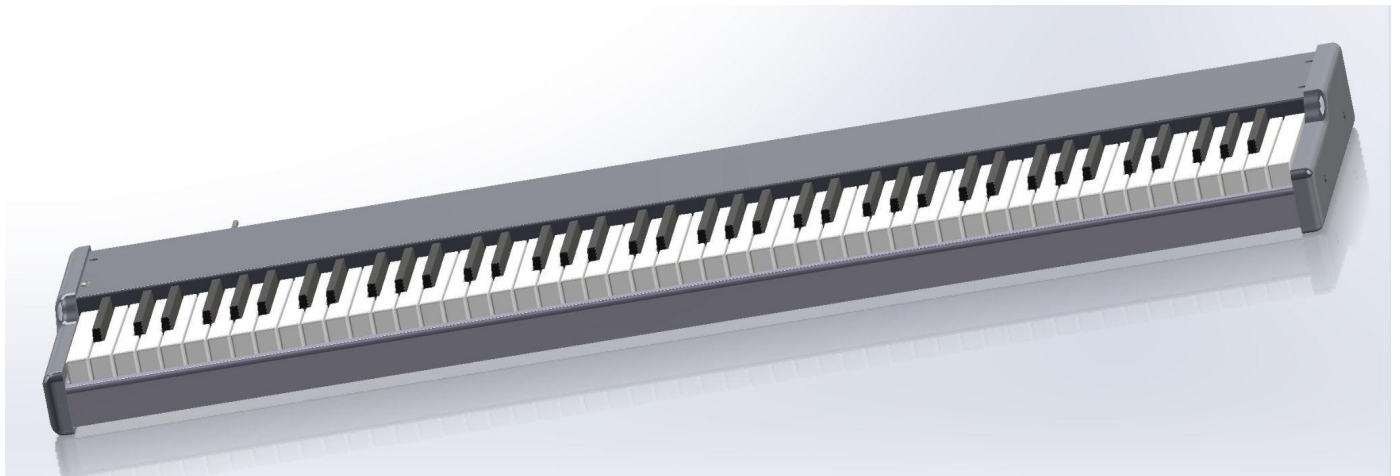

[Order Link](#)

Keyboards are made in the facility that produced our prototypes. While we continue to make plans for larger scale manufacturing, lower costs, and additional features (most importantly a piano sound engine), we want to make keyboards available for those interested in the current model.

We have worked hard to keep costs low and quality high and are offering the current keyboard design for \$4,950.00 USD. The current production run of 10 units (21 through 30) is fully sold out. We have the option to continue production after those units are built and are happy to take more orders for the waitlist. You can get on the list now and be in line for subsequent production runs. Just follow [this link and fill out the order form](#).

All current waitlist orders may be filled by mid-2024.

Read on to see what the current keyboard design is and our process for accepting orders.

NK5.5-C Keyboard Controller Specifications

NK5.5-C Keyboard Order Form

By submitting this form you are agreeing to purchase an NK5.5-C keyboard as they become available. We are soliciting orders for a third set of 10 keyboards. The second set was produced in a timely fashion and we anticipate shipping keyboards within 3 months after your deposit payment is made.

When we are near production to fill your order the following procedure will commence.

A deposit of 50% will be required to confirm your order. An invoice sent to your email address will be used to notify you. If the deposit is not paid within seven (7) days, you will be moved back to the waiting list and we will offer the keyboard to another person. The remaining balance and shipping charges will be billed one week prior to shipment of your keyboard. Your final payment must be received prior to shipment. Subsequent lots of keyboards will be offered under the same payment terms.

Warranty: 90 days for instrument defects.

Upon receipt, you have 14 days to assess and return the keyboard if you find it does not suit your needs. You will be refunded the sale price less a 10% restocking fee.

If we have not shipped you a keyboard by within six months of the date you paid your deposit, you will receive a full refund.
